

CO GAS DETECTOR

MODEL NO: CFS-400C

DESCRIPTION:

400C-series conventional carbon monoxide (CO) alarms are suitable for connection to **2-wire and 4-wire conventional fire detection control** and indicating equipment.

400C detectors can also connect to **2-wire and 4-wire** conventional fire detection control and indicating equipment that can accept conventional detectors.

Advanced electronics in conjunction with a semiconductor gas sensor provide early detection of carbon monoxide gas and high immunity against unwanted alarms.

TECHNICAL FEATURES:

- Detector auto-reset once gas levels fall below alarm threshold levels
- 2-wire and 4-wire models for DC 12 V and DC 24 V operation
- High sensitivity UVtron sensor tube technology
- Solar blind, with an electronic filter to eliminate unwanted alarms from naturally occurring phenomena
- High immunity to electrical noise and RF interference
- Connects to zone monitor for use with addressable control and indicating equipment
