

MANUAL CALL POINT

MODEL NO: AFS-MCP600

DESCRIPTION:

The **600 Manual Call Points** includes a pressure activated displacement element to provide a safe and convenient way for building occupants to manually initiate a **fire alarm condition**.

Resetting the manual call point is achieved by inserting a key through the underside of the unit to replace the operating face to the quiescent position

TECHNICAL FEATURES:

- Pressure activated displacement element provides a safe user experience
- Integral indicator to show polling and alarm activation
- Resettable with simple key operation
- Monitors for quiescent, alarm and fault conditions
- 125 usable detector address settings per loop
